Subject: Re: Dimock Residential Groundwater Site

Hi Ms. Taylor,

Thank you very much for getting back to me in a timely manner.

I completely understand about the release of private residential information. I was wondering if you could tell me more about the sampling process? How deep in the residential wells were the samples taken, as well as in respect to the water table? Like how far? If there is a cross sectional map of any relevance that would be great.

Is there a standard procedure for water sampling in the EPA, as I found some articles about the sampling process, but they were an overview?

Was there any sampling done in any of the different streams or watersheds?

Thanks again for the great info and I look forward to hearing from you.

Hello **Ex. 6 - Personal Privacy**

The Dimock Residential Groundwater sampling consisted of 61 private residential wells located in the Dimock, PA area. We do not release private citizens' names or addresses in association with sampling events, however we can share data results and general sampling area information. The majority of the samples were collected within the nine square mile area indicated on the map shown on the website [www.epaossc.org/dimock\\_residential\\_groundwater](http://www.epaossc.org/dimock_residential_groundwater). A few samples were collected just outside that area because of the close proximity to the study area and by requests from residents at the time. Please let me know if I can help with any additional questions you may have about this sampling event.

Thank you.

Sincerely,

Trish Taylor, Community Involvement Coordinator

Subject: Dimock Residential Groundwater Site

Hello Mr. Fetzer and Ms. Taylor,

I'm **Ex. 6 - Personal Privacy** and am a grad student at Indiana University and I was wondering about some of the samples that were collected at Dimock, PA by the EPA. I found the EPA website to be very helpful, but I was not able to find any information about where the samples were taken and the location as well. I was wondering if you could provide me with some more information on these samples especially HW 12, 15, 16, 22, 24, 25, 26, 29, 31, 32, 34, 35, 39, 40, 41, 47, 57, and 60.

Any more information would be much appreciated.

Thanks,

**Ex. 6 - Personal Privacy**
